Europe's longest running Oric Magazine

INDEX

Issues 1 to 145

September 1987 to September 1999

Final Update

Price: £1.50

Compiled and Distributed by Dave Dick, 65 Barnard Crescent, Aylesbury. HP21 9PW
Original idea and work from Jon Haworth, 3 Madingley Road, Cambridge. CB3 0EE
Updated and amended by Steve Marshall, Cumbria 2002

PREFACE

This is the final copy of the Oric User Monthly index with the magazine itself finishing after a long and distinguished career. At the time, OUM was the longest running Oric magazine in Europe, and indeed, the world.

As I write this, the CEO magazine is fast approaching the landmark 145 issues and looks set to carry on, and stride ahead as the longest running Oric magazine ever.

It is perhaps sad to reflect on OUM then, after its demise, but I look back mostly with fond memories of a time filled with enthusiasm and joy.

'Rhetoric' is the magazine I founded when I heard OUM was to finally close down. I felt there was more to be done. Since then we have found the problems of running a magazine to be great and numerous. It is only after struggling through such troubles that you truly realise what a great achievement OUM was. Thanks go to Robert Cook for starting things, and of course, to Dave Dick for turning these beginnings into the remarkable achievement that OUM became. Thanks must also go to all those that contributed.

I have kept the preface of 1992 below. In just a few months it will be 10 years since this was written which just shows how the Oric keeps on going. Forever onward !

Steve Marshall

Cumbria
April 2002

1992 PREFACE

The fifth anniversary of O.U.M. seemed a suitable time to compile a comprehensive index to the myriad pieces of information contained within the 60 issues of O.U.M. that have appeared thus far. The sheer volume of issues was making it an increasingly frustrating task to try and track down that item that you knew was there somewhere....

Here then is the result. I hope its users will find it of assistance; constructive comments, favourable or otherwise, will be welcomed. Note that the left hand pages have deliberately been left blank for your own notes, amendments and additions.

The index will maintained on a monthly basis, so can be ordered at any time in the knowledge that it will be up to date.

Jon Haworth
